Dear Tom

MIDDLESBROUGH TOWN HALL

I would like to take this opportunity to thank you and your team for your efforts to date on the Middlesbrough Town hall Scheme. The scheme has had many challenges, due to the historic nature and age of the building, in which your advice and lead in the earlier design meetings, has been praised by, not only Kier but the client team also.

A good example of this and many is that we had a challenge in the Existing Courtroom area where we had the logistics of working at height and the head scratching of how we could return the existing lay light back to its original glory, prior to being covered up in around 1960.

With pain stake cleaning and restoration, you and your team excelled, and the above attached photos can only show how fantastic the newly restored space has become. This is documented in many conservation reports during the works on site.

Although we are not quite across the finishing line, I would like to thank you personally and would not hesitate to work alongside you and your team again.

Kier look forward to your return to site to complete the remaining works, and a successful handover of the Middlesbrough Town Hall Project.

Yours faithfully,

Jason Hartnell

Project manager.
